Programming: Python, Java, C, SQL
Web Dev: HTML, CSS, JavaScript, Django
AI & Data: Machine Learning, NLP, Data Analytics, Matplotlib
Tools: Git, GitHub, VS Code, REST APIs

EXPERIENCE

Technical Support Intern Apr 2026 - Jul 2026

Hyrex Solutions, Howrah, West Bengal

- Provided first-level technical support and troubleshooting assistance to clients and internal teams.
- Logged, tracked, and resolved support tickets in a timely and professional manner.
- Assisted in diagnosing software, application, and connectivity issues, escalating complex cases as needed.
- Documented recurring issues and solutions to help build an internal knowledge base.

PROJECTS

MindFlow AI - Mental Health Platform

Full-Stack Developer & ML Engineer (Python, Django, NLP)

- Developed a comprehensive AI-powered mental health support platform.
- Implemented real-time emotion detection using Natural Language Processing (NLP).
- Built an empathetic AI support chatbot and emotional wellness tracking dashboard.

Grilli - Restaurant Table Booking System

Frontend Developer (HTML, CSS, JavaScript)

- Designed a luxurious, dark-themed restaurant website with an elegant table booking system.
- Created interactive reservation forms and a secure, responsive login portal.
- Focused on premium UI/UX design to enhance customer engagement.

E-Commerce Platform

Web Developer (HTML, CSS, JavaScript)

- Built a full-featured e-commerce web application with dynamic product catalogs.
- Implemented shopping cart functionality and user authentication flows.

- Ensured a fully responsive design for seamless mobile and desktop shopping experiences.

Data Analytics Dashboard

Data Analyst (Python, Matplotlib)

- Created an interactive data analytics and visualization dashboard using Python.
- Designed dynamic charts and KPI metrics to provide insightful data-driven reports.
